Security Devices International Inc. Enters Multi-Year Agreement to Supply Safariland with SDI's Patented Collapsible Head 40mm Projectiles

PERRY, FL (June 19, 2017) - Security Devices International Inc. (TSX VENTURE: SDZ) (OTCBB: SDEV) ("SDI") with U.S. offices in Perry, FL and Fitchburg, MA is pleased to announce the signing of a multi-year agreement to provide its patented collapsible head blunt impact projectiles (BIPs) and collapsible head payload projectiles including OC (pepper spray), CS (tear gas), ML (marking liquid), MP (marking powder), MO (malodorant), IN (inert powder) and DNA (plant based DNA forensic marking rounds) to The Safariland Group (Safariland), headquartered in Jacksonville, FL.

SDI will supply BIPs and payload projectiles to Safariland for integration with Safariland's proprietary propulsion system. These new rounds will be marketed under the industry-leading Defense Technology brand name. The first shipment of rounds was made as of the date of this press release.

SDI believes that this agreement with Safariland validates the more than five years of research and development that SDI has invested in the creation of the collapsible head 40mm round. SDI further believes that by working in partnership with Safariland, together the companies can reach a far larger market for the BIP than SDI would be able to reach on its own. Bryan Ganz, President of SDI, stated "This is an important agreement for SDI as Safariland has an extensive distribution network with access to a broad customer base that we know can benefit from the SDI technology."
