</TABLE>

The accompanying condensed notes are an integral part of these interim financial statements.

SECURITY DEVICES INTERNATIONAL, INC.

(A Development Stage Enterprise)

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements do not include all the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of all recurring accruals) considered necessary for fair presentation have been included. Operating results for the interim period are not necessarily indicative of the results that may be expected for the year ended November 30, 2007. Interim financial statements should be read in conjunction with the company's annual audited financial statements for the year ended November 30, 2006.

The Company was incorporated under the laws of the state of Delaware on March 1, 2005. The interim financial statements include the accounts of Security Devices International Inc. (the "Company").

2. NATURE OF OPERATIONS

The Company is currently in the advanced stages of developing LEKTROX, a unique line of wireless electric ammunition for use in military, homeland security, law enforcement, and professional and home security scenarios. LEKTROX has been specially designed for use with standards issue riot guns, M203 grenade launchers and regular 12-guage shotguns. This will allow military, law enforcement agencies etc. to quickly deploy LEKTROX without the need for lengthy, complex training methods or significant functional adjustments to vehicles or personal equipment. Simplicity of use is also a key benefit for the home security market where most users have little or no specialized training. LEKTROX is a 3rd generation electric solution. First generation solutions were electric batons and hand-held stun guns which had a range of arm's length. 2nd generations were the wired electric charge solutions. 3rd generations are the wireless electric bullets. Currently, there is still no 3rd generation wireless electric bullet on the market.

The Company is in the development stage and has not yet realized revenues from its planned operations. The Company has incurred a loss of $ 576,237 during the three month period ended February 28, 2007. At February 28, 2007, the Company had an accumulated deficit during the development stage of $2,425,735 which includes a non- cash stock based compensation cost of $1,254,926. The Company has funded operations through the issuance of capital stock. During the year ended November 30, 2006 the Company raised $1,982,333 primarily through issue of common stock. (See note 5). During the quarter ended February 28, 2007, the company raised an additional $1,170,670 through issue of common stock. The company has a working capital of $ 2,151,217 and shareholders' equity of $2,159,466 as at February 28, 2007. Management's plan is to continue raising additional funds through future equity or debt financing until it achieves profitable operations.

3. RESEARCH AND PRODUCT DEVELOPMENT

Research and Product Development costs, other than capital expenditures but including acquired research and product development costs, are charged against income in the period incurred.

4. PLANT AND EQUIPMENT, NET

Plant and equipment are recorded at cost less accumulated depreciation. Depreciation is provided commencing in the month following acquisition using the following annual rate and method:

(Amounts expressed in US Dollars)

Computer equipment 30% declining balance method

	February 28, 2007		November 30, 2006	
	Cost	Accumulated Depreciation	Cost	Accumulated Depreciation
Computer equipment	$8,379	$ 130	$ -	$ -
	$8,379	$ 130	$ -	$ -
Net carrying amount	$8,249		$Nil	

5. ISSUANCE OF CAPITAL STOCK

Year ended November 30, 2006

i) On December 31, 2005 the Company authorized the issuance of 486,000 common shares for cash for a total consideration of $48,600.

ii) On January 31, 2006 the Company authorized the issuance of 470,000 common shares for cash for a total consideration of $ 47,000.

5. ISSUANCE OF CAPITAL STOCK -Cont'd

Year ended November 30, 2006 (cont'd)

iii) On March 8, 2006 the Company authorized the issuance of 286,000 common shares for cash @ $0.175 per share for a total consideration of $50,050. On the same day, the Company authorized the issuance of 50,000 shares to a consultant for the services rendered as finder's fees. These services were valued @$0.175 per common share and expensed as consulting fees in the amount of $8,750.

iv) By means of a prospectus dated May 5, 2006 the Company offered to the public up to 2,000,000 shares of its common stock at a price of $0.20 per share. The Company closed the offering on July 31, 2006 after receiving consideration of $400,000 and issued 2,000,000 common shares in August, 2006.

v) The company directors exercised 950,000 stock options to purchase 950,000 common shares for a total consideration of $95,000 on November 1, 2006.

vi) On November 29, 2006 the company authorized the issuance of 200,000 common shares for cash @$1.00 per common share. A commission of $20,015 was paid to the agent and this amount is netted with additional paid in capital. The proceeds received were part of the Private offering effective November 20, 2006.

vii) As at November 30, 2006 the company received stock subscription for $1,165,500. This was also part of the private offering effective

(Amounts expressed in US Dollars)

November 20, 2006. The Company closed this private offering on December 12, 2006 when it had completed the sale of 2,536,170 shares of its common stock to a group of private investors.

Three months ended February 28, 2007

On December 12, 2006 the Company completed the sale of 2,536,170 shares of its common stock to a group of private investors. The shares were sold in the private offering at a price of $1.00 per share and are restricted securities as that term is defined in Rule 144 of the Securities and Exchange Commission. Company had already issued 200,000 common shares on November 29, 2006 and it issued the balance 2,336,170 shares on December 12, 2006. The Company relied upon the exemption provided by Section 4(2) of the Securities Act of 1933 for the sale of these shares.

6. STOCK BASED COMPENSATION

Effective January 7, 2007 the company appointed a CFO and granted stock options to acquire 125,000 common shares under its Non-Qualified Stock Option Plan. The exercise price for the options was set at $1.50 per share. These options vest immediately and expire on November 14, 2011. The stock based compensation cost of $204,986 has been expensed in this quarter.

The fair value of each option used for the purpose of estimating the stock compensation is based on the grant date using the Black-Scholes option pricing model with the following weighted average assumptions:

Risk free rate	3.50%
Volatility factor	122.84%
Expected dividends	nil

As of February 28, 2007 there was $Nil of unrecognized expense related to non-vested stock-based compensation arrangements granted.

7. RELATED PARTY TRANSACTIONS

a) During the three month period ended February 28, 2007, all out of pocket expenses of directors/promoters were expensed. The Directors also made advances to the Company to meet the operating expenses. These advances of $4,941 as at February 28, 2007 are unsecured and bear interest at 4% p.a.

b) A company controlled by a 13.7% (as of November 30, 2006) shareholder, who is also the son of a director was paid $168,100 from inception to February 28, 2007 ($78,000 for the three months ended February 28, 2007) for research and development (see note 9 (b))

8. PREPAID EXPENSES AND OTHER

Includes prepayments made for directors' and officers insurance for $10,665.

9. SUBSEQUENT EVENTS

a) The Company had entered into an agreement with a director regarding development of its "Electrical Shocker" ("ES") technology. Pursuant to this agreement, the director was paid $38,000 and in return had released the Company from a prior obligation to pay royalty from the sale of any product developed using this technology. In addition, the director was paid an additional $62,000 in February, 2007 upon signing the agreement. As per the agreement terms, should the development of a working industrial prototype of the ES technology be completed to the satisfaction of the Company on or before March 10, 2007, then the son of the director can retain ownership of 1,560,000 shares ("subject shares") representing 13.7% of the common shares of the Company as of November 30, 2006. Should the development of a working industrial prototype of the ES technology not be completed to the satisfaction of the Company on or before March 10, 2007, then the subject shares will be cancelled by the Company and the director will be paid a full and final payment of $50,000. In the absence of acceptance of the technology by the Company, the Company cancelled 1,560,000 shares and the director was paid $50,000 on March 12, 2007.

b) On March 12, 2007, the Company authorized the issuance of 50,000 common shares at $1.50 per share for cash to a consultant for past and on-going consulting services, the fair value of these services have been estimated at $155,000 being the market price of these shares on date of authorization. The difference of $80,000 between the fair value and the cash proceeds received will be expensed to consulting fees and credited to paid in capital in the next quarter.

c) The Company has signed a letter of intent with a third party Agent on a best effort basis for a private placement offering of Common Shares in the amount of US$ 5 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN OF OPERATIONS

SDI was incorporated on March 1, 2005. SDI is a defense technology company which is developing LEKTROX, a unique line of wireless electric ammunition for use in military, homeland security, law enforcement, and professional and home security scenarios.

SDI plans to develop a Short Range version of the LEKTROX after the development to the Long Range LEKTROX has been completed. However, since the development of the Long Range LEKTROX is not yet complete, SDI does not know the time or cost involved in developing a Short Range LEKTROX.

As of March 31, 2007 SDI had not generated any revenue.

During the three months ended February 28, 2007 more capital was available to SDI and as a result SDI was able to spend more on research and product development.

During the period from inception (March 1, 2005) through February 28, 2007 SDI's operations used $(973,131) in cash. During this period:

o SDI borrowed $4,941 (net) from its officers and directors,

o raised $2,761,275 from the sale of 4,176,050 shares of common stock to private investors,

o raised $400,000 from the public sale of 2,000,000 shares of common stock at a price of $0.20 per share, and

o raised $95,000 from three of its officers and directors upon the exercise of options to purchase 950,000 shares of common stock.

SDI's plan of operation during the twelve month period ending February 28, 2008 is as follows:

Activity	Projected Completion Date	Estimated Cost
Completion of fully operational Long Range LEKTROX prototype (37-38 MM) up to product file:	5/07	
Completion of fully operational Long Range LEKTROX prototype (40 MM) up to product file:	6/07	
Completion of mechanical aspects of Long Range LEKTROX prototype (12 GUAGE)	2/08	
Completion of tooling for Long Range LEKTROX	2/08	
Total for above:		$1,460,000

SDI did not have any material future contractual obligations as of March 31, 2007.

SDI anticipates that its capital requirements for the twelve-month period ending February 28, 2008 will be:

Research and Development	$1,460,000
General and administrative expenses	100,000
Patent filings	30,000
Total	$1,590,000

SDI does not anticipate that it will need to hire any employees prior to June 30, 2007. SDI's future plans will be dependent upon the amount of capital it is able to raise.

SDI will attempt to raise capital through the private sale of its equity securities or borrowings from third party lenders.

Controls and Procedures

Sheldon Kales, the Company's Chief Executive Officer and Rakesh Malhotra, the Company's Principal Financial Officer, have evaluated the effectiveness of the Company's disclosure controls and procedures as of a date prior to the filing date of this report, and in their opinion the Company's disclosure controls and procedures are effective to ensure that material information relating to the Company, including its consolidated subsidiaries, is made known to them by others within those entities, particularly during the period in which this report is being prepared, so as to allow timely decisions regarding required disclosure. There have been no changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls. As a result, no corrective actions with regard to significant deficiencies or material weakness in the Company's internal controls were required.

PART II

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

During the three months ended February 28, 2007 the Company sold 2,336,170 shares of its common stock to a group of private investors at a price of $1.00 per share.

The Company relied upon the exemption provided by Section 4(2) of the Securities Act of 1933 with respect to the sale of these shares.

ITEM 5. OTHER INFORMATION

In March 2007 the Company purchased 1,560,000 shares of its common stock from Alexander Blaunshtein for $50,000. These shares were returned to treasury and cancelled. Alexander Blaunshtein is the son of Dr. Natan Blaunstein, who is a director of the Company.

ITEM 6. EXHIBITS

The following exhibits are filed with this report:

a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) designed such internal control over financial reporting, or cause such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of the internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

b) any fraud, whether or not material, that involves management or other employees who have significant role in the registrant's internal control over financial reporting.

EXHIBIT 32

In connection with the Quarterly Report of Security Devices International Inc. (the "Company") on Form 10-QSB for the period ending February 28, 2007 as filed with the Securities and Exchange Commission (the "Report"), Sheldon Kales, the President of the Company, and Rakesh Malhotra, the Principal Financial Officer of the Company, certify pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to the best of their knowledge:

(1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and

(2) The information contained in the Report fairly presents, in all material respects the financial condition and results of the Company.
